Mouse expression-vector displacement by tissue and cell type
Mammary_Gland | basal cell
Bladder | bladder cell
Mammary_Gland | endothelial cell
Marrow | hematopoietic precursor cell
Liver | hepatocyte
Limb_Muscle | mesenchymal stem cell
Kidney | podocyte
Bladder | endothelial cell
Limb_Muscle | skeletal muscle satellite cell
Marrow | megakaryocyte-erythroid progenitor cell
Mammary_Gland | stromal cell
Bladder | leukocyte
Mammary_Gland | luminal epithelial cell of mammary gland
Lung | alveolar macrophage
Lung | fibroblast of lung
Marrow | naive T cell
Kidney | macrophage
Mammary_Gland | macrophage
Marrow | monocyte
Marrow | promonocyte
Lung | CD4-positive, alpha-beta T cell
Kidney | fenestrated cell
Marrow | proerythroblast
Tongue | keratinocyte
Lung | bronchial smooth muscle cell
Lung | classical monocyte
Marrow | precursor B cell
Kidney | kidney proximal convoluted tubule epithelial cell
Lung | intermediate monocyte
Limb_Muscle | macrophage
Mammary_Gland | B cell
Marrow | granulocytopoietic cell
Marrow | erythroblast
Marrow | macrophage
Limb_Muscle | smooth muscle cell
Marrow | naive B cell
Heart_and_Aorta | leukocyte
Mammary_Gland | T cell
Lung | B cell
Lung | non-classical monocyte
Limb_Muscle | endothelial cell
Spleen | macrophage
Limb_Muscle | T cell
Kidney | kidney loop of Henle thick ascending limb epithelial cell
Kidney | kidney distal convoluted tubule epithelial cell
Spleen | NK cell
Kidney | kidney collecting duct principal cell
Tongue | basal cell of epidermis
Spleen | T cell
Heart_and_Aorta | fibroblast of cardiac tissue
Lung | NK cell
Spleen | B cell
Spleen | mature NK T cell
Marrow | granulocyte
Bladder | bladder urothelial cell
Heart_and_Aorta | endothelial cell of coronary artery
Limb_Muscle | B cell
Kidney | kidney cortex artery cell
Spleen | proerythroblast
Lung | CD8-positive, alpha-beta T cell
Kidney | epithelial cell of proximal tubule
Heart_and_Aorta | endocardial cell
